THE QUOTE COMPARISON REVOLUTION

Across all lines of mainstream insurance, buyers have become increasingly reliant on comparison sites to find the most suitable and cheapest deals. Sites like MoneySupermarket help customers find exactly what they're looking for in a fraction of the time and with comparably little effort.

BACKGROUND

This gave us the bright idea to create a simple and user-friendly comparison site which would change the way schools search for staff absence insurance.

Introducing staffabsenceinsurance.com

This unique comparison site puts a stop to schools trolling countless websites to request quotes from individual providers. Our modern and carefully designed website compares prices, levels of cover and additional policy benefits from a diverse range of the UK's top providers.

Whether our users are looking for an insurance policy for the first time or want to beat their renewal quote, we're here to help. Schools simply provide us with a few details and we'll give them an instant quote comparison! What's more, we don't charge our customers for using our service and we're unbiased. We also don't sell their data and don't add fees or commissions to the prices they compare.

WHO VISITS OUR WEBSITE?

Our website visitors predominantly fall into two distinct categories. The first is those searching for or researching a financial solution for staff absences. For these schools, our website acts as a simple, efficient and user-friendly resource to help them understand everything they need to know.

The second type of visitor, who form a large proportion of our site's traffic, are aware of what staff absence insurance is and are ready to purchase the right solution for their school. All they need to do is tell us their desired basis of cover and we'll provide them with quotes from a minimum of three different providers! Instant price and feature comparison in a few quick clicks.

WHAT MAKES US DIFFERENT?

- Our site provides schools with an instant quote comparison. No waiting around for follow up emails to see your prices.
- We provide much more than the price of the policy – we also show the levels of cover so that schools can make a more informed decision.
- Our comparison page is dynamic and allows schools to alter their requested basis of cover to show how it affects their premium. They can then build their quotes further by adding or removing an array of different cover options such as stress, maternity and much more.
- We don't charge our customers for using our service and we're completely unbiased!

WHY COMPARE INSURANCE QUOTES WITH US?

We're aware that schools come in all sizes and have differing budgets and insurance requirements.

Whatever your needs; whether that be an all-encompassing absence management package, the cheapest policy in the market or something more specialised, we can help.

Maybe you're looking for a policy which includes health and wellbeing support (don't worry we will explain), cover for pre-existing conditions or is specially designed for academies. Our comparison site covers all bases. Just click and get started.

CLUSTERS, ACADEMY CHAINS & TRUSTS

Many schools, colleges and academies purchase insurance as part of a cluster, chain or trust. To assist these groups, we have put together a friendly and knowledgeable support team to help make the process straightforward and hassle-free.

They can talk you through the various options providers offer, whether that's covering the entire group under the same insurance policy or creating a bespoke solution on a school-by-school basis.

Plus, most of the providers we compare offer discounts, rewards or additional cover benefits for clusters, chains and trusts. Just call us on **0800 802 1764** and we'll assist you in finding the perfect solution.

QUOTE COMPARISON

We're here to make finding the right solution and getting the best deal as simple as possible.
